SUNDAY SERVICES

Large congregations greeted Rev. J. C. Cook at the Baptist church last Sunday forenoon and evening. As is the custom of the pastor, he delivered two very entertaining discourses. Rev. Cook is very much liked by his flock, and is making an excellent pastor.

Rev. A. R. Kasey, of the Methodist Church, preached before the Adair County congregation at the Methodist church, preceding one of his characteristic sermons, which delighted his many hearers. Before the sermon a beautiful piece of music was sung by Rev. Kasey, Mr. Penland, Misses Penland and Shannon.

An evening service was held at the Methodist church, Mr. Ohlemacher and class furnishing the music. After an opening song Rev. Kasey delivered a short address, taking up the analysis of music, relating two or three touching and interesting stories. The singing followed was beautiful, showing that the voices of the young people had been well trained. The solo by Miss Martha Hancock received many favorable comments. Special organ service is very pleasing, and the church going people of Columbia would be glad if the various ministers would insist that the practice be continuous.

A FINE BERKSHIRE.

Mr. W. L. Walker has one of the finest male Berkshires ever brought to this county. He is perfectly marked of unusual length and without a defect in all the points that go to make and ideal sire. He is only 14 months old but will weigh 250 pounds and only in moderate flesh for a Berkshire. He is registered as Prince Lee and was bred by L. N. J. dan and son of Oakland, Ky. Prince Lee was bred by Lee's Victoria, he by Columbia King. The sire was a son of Lord Pomeroy that sold for \$1,100, the highest price ever paid for a hog of any breed. Mr. Walker purchased Prince Lee last October and takes great pride in showing him to those who admire fine Berkshires.

ATTENTION.

The change in the size of The News is due to the demand for space by those who believe it good business to advertise. At this season of the year The News has usually had fairly good patronage, by advertisers, but this year the demand was too heavy for its regular size and do justice to its many readers, news columns, and to meet the requirements of our best business people, so it appears in six column form. The change is temporary unless conditions should warrant its continuance. We here to meet the demands—expand or contract to suit the season, but to measure up to reasonable requirements of news service every issue.

L. W. T. S. NOTES.

Miss Katie Murrell, one of our seniors, has been quite sick, but we are glad to learn that she is much improved at present.

Rev. Harry King has been on the sick list for nearly two weeks.

Miss Hallie Rodgers was visiting at her home in Green county, a few days off last week.

Mr. Nathan Basham left last week for Missouri, where he will make his home. We are very sorry to lose him from the school.

Two or three new pupils entered school last week.

On Saturday evening a large crowd

was at the Lindsey-Wilson to attend the public debate given by the F. L. S. and C. D. S. Misses Zella Pelly and Alma Kratzer of the O. F. L. gave readings, which were very much enjoyed by all present. Each of the young men who spoke gave strong reasons for their favor. Mr. Penland and Misses Penland and Wright represented the F. L. S., and Misses Moorman and Story the C. D. S. The question for discussion was, Resolved, "that the Initiative, Referendum and Imperative mandate should be incorporated in our State and National Constitutions. The decision was rendered in favor of the negative, which meant another score for the C. D. S.

THE M. & F. HIGH SCHOOL NOTES.

Miss Mary Williams is in school again after an absence of several weeks.

Henry Hancock entered school last Thursday.

Ralph Hurt was ill last week.

Miss Rosa Conover spent Friday night with her cousin, Miss Dimpie Conover.

Mr. and Mrs. W. B. Patterson entertained at 5 o'clock dinner Monday evening, in honor of their son's birthday.

Miss Cecil Pile read in chapter Wednesday morning a very interesting journal, which was gotten up by the little girls and it contained some very witty jokes.

Edwin Cravens was asked by one of his friends, "Does your teacher like you when you misspell words?" "No," said Edwin, "she believes in simplified spelling."

Miss Madge Rosenfield asked James Shirley, if his sister was in Potter College. James very politely answered, "No"—that she was in Bowling Green.

Miss Trabue met her entire class, from both schools, in their Art Studio, and organized an Art League Friday afternoon.

A list of books was ordered last week with part of the money received from the lecture. Through the courtesy of one of our enthusiastic trustees we have the volumes of the Universal Dictionary on our reading table.

Thursday afternoon the boy's met in Chapel and organized a Spring Athletic Association. A committee, Mr. Joe Miller, Mr. Edwin Cravens was appointed to draw up a constitution and to report Monday afternoon. The meeting and the rest of the procedure were very informal. A committee was appointed to finish the preparations on the constitution and to draw up a constitution with a generous support from new members-elect of the Association worked on the diamond Saturday. Monday afternoon another meeting was held, the constitution read by Edwin Cravens voted and passed. The officers elected are as follows:—President, Robert Miller; Vice President, Melvin Grissom; Secretary, James Shirley; Treasurer, Joe Miller; Manager of the Base Ball Team, Edwin Cravens; Committee on grounds, Joe Miller. The purpose of the Association as stated in the constitution is "to promote Athletics in the M. & F. High School, to arouse an interest in athletic among the pupils, to quicken the enthusiasm for our school, to have warmer comradeship, and a loyal spirit wherever yellow and white shall wave."

The young ladies of the M. & F. High School met at 4 o'clock Thursday evening and organized a Tennis Club. Miss Frances Jones and Miss Alice Walker were appointed a committee to report on a constitution at the next meeting Thursday. This was an enthusiastic meeting and the opportunity to elect officers was not to be lost then, so instead of waiting 'till next Thursday, these young ladies were elected. President, Miss Margaret Todd; Vice President, Mrs. James Grant; Secretary, Miss Elizabeth Holladay; Treasurer, Miss Myrtle Myers; Manager, Miss Mary Miller. As a committee on games, matches and tournaments, Miss Frances Jones was elected.

Dr. R. M. Taylor, of Greenburg, was here last Thursday. He informed the News that all necessary arrangements had been perfected for the building of the proposed pine from town to the Adair county line. The overseer has been employed and all necessary machinery purchased, and if the weather is favorable the work will certainly commence the first of April.

Interest in the merit contest continues. There are more weeks before the final count, and much work can be done in that length of time.

NEW RAILROAD.

Length Will Be 750 Miles, and It Will Pass Through Rich Mining Country.

LESLIE M. SHAW AN OFFICIAL.

Danville, Ky., March 13.—Leslie M. Shaw, formerly Secretary of the Treasury under President Roosevelt, was to-day chosen treasurer and director of the Danville, Scottsville and Columbia Railroad Company, the railroads which are located here.

Work on the railroad through the road will begin in the course of a few weeks.

A contract to erect twenty miles leading South from here has been awarded to Anthony Cross, the railroad builder of Cincinnati. J. H. Sullivan and three other competent Cincinnati engineers are now engaged placing grade stakes. The new road will run from this point to Scottsville via Hustonville, Liberty and Columbia.

At a meeting held in the office of

Max Levy, in Cincinnati, capitalists who are promoting the Southern Kentucky and Northern Georgia planned to begin construction work at once. The railroad company has been chartered, and the railroad has been secured.

The company is capitalized at \$2,500,000. It

will be a little over 750 miles long, running from McKinney, Ky., to Savannah, Ga., where it will connect with the Queen and Crescent and the Central of Georgia.

The Kentucky division of the road will be known as the Danville, Columbia and Scottsville, and the Georgia division will be called the Dalton and Alendale. The territory through which the railroad is to run is at present entirely without railroad facilities, and the railroad has been chartered to five counties in Georgia. The country is said to be rich in mining possibilities, and is to take advantage of these that the railroad is to be built. The Kentucky veins are said to yield abundant quantities of "barites," a valuable mineral, much in demand for sugar refining and tanning, while the coal mining properties are enormous.

Since putting the above in type we learn from the Kentucky Advocate that the offices of the company have been removed from Hustonville to Danville, and that Secretary Shaw is expected to arrive soon and spend several days conferring with President Allen. The same paper makes the statement that from 700 to 800 men will be gainfully employed as soon as practicable.

A LITTLE PACKAGE OF NECESSITIES.

Fred McLean received last Friday morning a small package of brass buttons in which was the following note.

Columbia, Ky., Mch. 11.—Fred McLean, City.

"Sir: Your article in last week's News concerning improvements in our town met with the approval of myself and almost every other person in this place before I can leave home.

Sубурбите.

Fred requests the News to say he is not at all offended at the donor of this little bunch of necessities, and that they have never come in better time, because he had not had the package in his possession an hour before he was dead, and badly, of all is, the buttons are the kind that don't have to be sewed on, being the "bachelor" sort. A dig for a dig.

PREACHING NEXT SUNDAY.

J. F. Roach, Pink Ridge. Dr. G. E. Barter, Creelboro. Z. T. Williams, Columbia. H. T. Jesse, Independence. J. C. Cook, Grayville. J. M. Pierce, Freedom. B. F. Vails, Mt. Vernon. C. M. Deenon, Liberty. A. R. Kasey, Taber. T. J. Wade, Clear Springs.

Farmers are especially engaged preparing for a corn crop.

Mr. J. N. Hundley called last Monday and dropped a dollar with the News for another year, and one for his son who is in Texas.

The indications are that the fruit trees will get too fast in business. They are now budding and as a result, the fruit will be killed.

Read the advertisement of Caldwell Bros., combination sale published in today's paper. If you have stock for sale enter it at the same at once.

Miss Katie Russell met with an accident one day last week. She was on roller skates and fell spraining her right wrist.

Field Day at the Lindsey-Wilson Saturday, May 2. The sport will commence in the forenoon and continue throughout the day.

The hours for skating are from 7 to 10 o'clock. The rink will not open on Wednesday evenings on account of the prayer meetings.

Three accidents at the rink Monday night. John Lee Walker has a sprained wrist, Mrs. J. E. Grant was hurt about the head and a traveling man got an ankle sprained. Tie parties are all up.

The attention of our readers is called to the advertisement of W. E. Jeffries & Sons. They are now ready to furnish the farm equipment with all kinds of machinery, field seed, etc. and an immense stock of hardware.

Miss Ella Walker met with an accident at the rink last Friday afternoon. Another young lady collided with her. Miss Walker falling sprained one of her ankles. It will be several weeks before she can leave home.

Another change in the management of the barber shop. Mr. W. T. Price has purchased Mr. G. T. Flowers one half interest and is now the sole proprietor. Mr. Flowers will remain with the shop as an employee. He invited his friends to continue their regular visits.

Mr. Rufus Raby guard at Lakeland, is a young man by the name of Hendrickson to that Asylum last week. The young man lived at Casey Creek. Mr. Raby is a close friend of Mr. A. D. Coy, of this place and while here spent his entire time with his old friend.

Russell & Co. have an attractive "ad" in today's News. They have an immense stock of spring goods and are now ready for customers. Their stock of clothing is large and their ladies' dress goods department is much fuller than usual. In visiting this store if you do not see what you want, ask for it.

Mr. A. S. Chewning, a very genial gentleman, entertained a number of his gentleman friends at the home of his parents last Sunday. A most delightful dinner was spread consisting of oysters, cold meat, soups, etc., dinner an hour and two spent in social converse. The occasion will long be remembered by those who were so fortunate as to be honored with an invitation.

Are you going to the rink.

We failed to print our Pelham letter last week, but we take the following news from it: June Carnes fell from her barn loft, breaking two of his ribs, but he is able to about his farm and store. While crossing Russell's creek at the Birk Ford, Bood Smith lost a turn of corn. His horse got scared, dumping the sack in the creek. It is a deep, bad ford and should be bridged.

John Will Cundiff was at home from the Cane Valley school. He reports that the base ball team of the institution had received its uniform and that the young lady students were ready to play tennis.

Mr. Robert Hudson is due the thanks of this community for starting a bakery. He is making delicious bread, cakes, pies, etc., and is having a fine run of trade. He has a wagon and promptly delivers goods. It is a home enterprise and should receive the trade of the town.

When you see a girl on skates moving like her shoes had ticks in them, you may know she is a tyro.

Bouquets are often made at the rink.

We have mailed statements, called attention to the Postal requirements, and yet some subscribers have not responded. If we are forced to discontinue your paper, April the 1st, we will expect you to pay up arrearage just the same.

Mr. J. B. Montgomery, whose death was announced in last week's News, was buried in Cave Hill cemetery. Mrs. Montgomery and her daughter reached Louisville from Mississippi in due time to make all necessary arrangements for the burial.

Dr. J. C. Gose, of Knifler, this county, carried his wife to Louisville last week where she underwent an operation for abscess on her back. We learn from Mr. Frank Sinclair, who left the city Thursday, that Mrs. Gose was in a critical condition. The many friends of the Doctor and his afflicted wife would be glad to hear a favorable report.

LARGE ATTENDANCE.

The Opening of the Rink Last Thursday Night Drew a Large Crowd

MUSIC BY THE COLUMBIA BRASS BAND.

A representative of the News was present at the opening of the skating rink, last Thursday evening, and noted a very large attendance and witnessed some very graceful movements by many of the young ladies and young gentlemen. There were many upon the floor who had skates for the first time, and the progress was remarkable. Of course there were some ups and downs, and when a performer spread himself upon the floor, the spectators notified the assembly that they were exceedingly well pleased.

The best of order prevailed and many of the best people in Columbia were in attendance.

While the performers were doing stunts upon the floor, the Columbia Brass Band discoursed lively music, many of the skaters keeping perfect time. It was noticeable that every time the bass drum was given a hard tap, a performer fell in a lunge and loud, making a noise skin to distinct notes.

For the present the rink will be open every night in the week save Sunday and Wednesday and there is not a doubt, but it will be well patronized. Skating is fine exercise, and besides there is much pleasure in the amusement.

The News congratulates Messrs. Staples & Coffey upon their opening trust that the rink will prove a profitable venture.

There were many spectators present and of whom were perfectly delighted with the exercises.

The News, in the future will attend as regular as possible, keeping its readers in touch with each evening's events.

EDUCATIONAL PROGRESS.

The House passed the Sullivan educational bill, which changes the whole system of school trustees and establishes a high school in every county in the State. The bill provides that the county shall be the governing unit in school matters, and that a tax of not to exceed twenty cents shall be levied for school purposes in each county. A county board of education, shall consist of not less than four nor more than eight members, with the County School Superintendent as a member ex-officio, to be established. This board is to be selected by the election of one school trustee in each school district, and the trustees of these districts to compose a division board of education in each educational division of the county, of which there shall be not less than four nor more than eight. The teachers are to be selected by the division boards, and each trustee is required to look after the needs of the schools in his district.

The main feature of the bill,

aside from the alteration in the methods of managing school, is that each county in the State shall have a high school. The bill now goes to the Senate, and is practically certain to pass there, both the Democrats and Republicans favoring it. The bill does not effect a graded high school or graded city school which now exists.

The railroad surveying corps has reached Liberty and will level up their grades from there to their starting point on their return this week. Col Allen is in Cincinnati conferring with contractors, to whom the completed survey will be submitted and to get bids on same. The others survey will be made immediately.

BACK TO THE COUNTRY.

The glory of the world in early spring, the mystic spell of the plowed furrow, now lures back to boyhood's country haunts many and many a farm-bred townsman whom the Great God Success has not blinded to life's purer joys. And happy indeed is the man who comes back often for such sweet communion with old Mother Nature and who understands the truth of Spurgeon's beautiful paragraph:

"He who forgets the humming of the bees among the heather, the cooing of the wood pigeons in the forest, the song of the birds in the woods, the rippling of rills among the rushes, and the sighing of the wind among the pines, need not wonder if his heart forgets to sing and his soul grows heavy. A day's breathing of fresh air upon the hills, or a few hours ramble in the beech woods' umbrageous calm, would sweep the cobwebs out of the brains of scores of toiling men who are now but half alive."

PLAYED BOTH ENDS.

Paradoxical as it may seem, the defeat of ex-Gov. Beckham for the United States Senate was due to the whisky interest and to the prohibition forces. The Republicans worked both sides, and worked them to a finish. It was a rare example of how both ends could be played in favor of the middle. It is another case where temperance people permitted themselves to be made fools of—where they were made tools for their own undoing.

I at once became interested. I was born in Texas and know but little of this good old ancestral country.

My father sent me the Adair County News while there. I enjoy it the more when he visits me there would have been Democrats and Beckham would have been elected on the first ballot. As it

is their pet measure, the county unit bill, is almost certain of defeat by the Republicans, and they have allowed the whisky interests to send one of their champions to the United States Senate, where he will do their bidding for the next six years.—Owensboro Inquirer.

Have made big reductions on men's and boys clothing, over coats. Call and see them and get bar again.

A DISGRACE TO ETERNITY.

The election of Bradley was a vindication of nobody, and made no progress in allaying the protracted heart-burning on the "dark and bloody ground." It was not in Bradley's time as Governor of Kentucky that the cruel assassination took place in the grounds of the Kentucky Statehouse. He was the candidate of those who adhered persistently to the fortunes, or misfortunes, of Caleb Powers. The blot made on Kentucky is still there, and Powers may have to stand another trial. If he does there are other men of note who will have to fall into line for investigation of their connection with the County News.

The influence of such a man as Bradley being elected to the United States Senate will tend to soften some of the asperities that have been rampant ever since the killing of Goebel from ambuscade; but it can not wipe out the revengeful attitude that has been assumed all these years. The actual trouble is not disposed of yet; and the dreadful memory of the cowardly killing will be current while stories can be transmitted from one generation to the next.

A good deal has been done toward the discouragement of the Populists and Anarchists, who want to make the Republicans form a machine depending on force; but the Goebel murder will stand as a disgrace to eternity.

The Kentuckians, however, still have their constitutional rights. The State is now, at least for a time, on "strict construction" ground; and it may be back some day to its old position as a good commonwealth, numbering among its public men, as it used to, many of the most brilliant and commanding men of our Union of States.—Cincinnati Enquirer.

HASKELL TEXAS.**Editor News:**

My father, James Paxton attended the "Home coming" at Louisville Ky, and visited Adair county, after an absence of 26 years and he has given me many reminiscences of his boyhood and of the old time people that then lived there many of them his bloodkin and their names being kept up by succeeding generations.

I at once became interested. I was born in Texas and know but little of this good old ancestral country.

My father sent me the Adair County News while there. I enjoy it the more when he visits me

and see him take up the News and go through it so intently.

Father visits his children a good deal and is with me, two or three months at a time. After he returned from the "Home coming" his thoughts turned to his brother John Paxton of Pierce city Mo, whom he has not met for 18 years, so he determined to visit him and started late in the fall, and remained until cold weather.

He made it a point to return by Tulsa on the high plains where I then lived. We had just at this time what we

call a "norther." Wind blew hard and the snow fell to the depth of 24 inches, the train was snow bound and congested passengers had to wait at little towns while the snow was being cleared ahead.

During this time two men of less than middle age seemed to take notice of my fathers uneven step and ministered unto him with kindness. Father told me of this and said one of the men was from Illinois and named Hamilton and the other from Jonesville Va, named Gibson. Gibson said that he was a cousin to Editor Harris of the Adair County News.

Mrs. W. P. Boyd.

LONGSTREET.

We have had a few days of nice weather.

The health of this neighborhood is no better at this time.

The farmers have begun talking of farming say they will convert talk into practice if the weather stays fair.

This week has been a record breaker at our little place in the business line.

Mr. Charles Owens and wife, were the guest of J. W. Bradley and wife, one day last week.

Mr. Donnie Owens and family, were visiting W. W. Owens and family Sunday.

The wife of Frank Foley, and that of Mr. Charlie Crain were visiting at S. B. Wades one day this week.

Mr. D. S. Wade was here one day this week on business.

Mr. Vernon Holt of Jamestown was here one day this week buying produce.

The Rev. A. E. Cooper and wife, were here yesterday on business.

Mr. J. O. Rexroat of this place is building himself a good barn.

So thanking you for printing our little items and wishing your paper the best success, we close.

The young man who says he cannot succeed in such a country at this, with all its magnificent opportunities, is the poorest kind of a stick. Why, there are men today who, when they see that a young man has the right kind of pluck, are willing to advance him money to build up his business and give him a start. These are the young men, however, who stick, dig and save. What others have done can be performed today by our young men. They are in a great measure the architects of their own fortunes.

Upon themselves alone rests the responsibility. They have it in their power to either make or unmake, and every young man should earnestly and seriously ask himself which it shall be.

No Use To Die.

"I have found out that there is no use to die of lung trouble as long as you can get Dr. King's New Discovery," says Mrs. J. P. White, of Rushboro, Pa. "I would not be alive to-day only for that wonderful medicine. It loosens up a cough quicker than anything else, and cures lung disease even after the case is pronounced hopeless." This most reliable remedy for coughs and colds, asthma, bronchitis and horse-soreness, is sold under guarantee at T. E. Paul's drug store, 50c and \$1.00. Trial bottle free.

ANNIE BENNETT DEAD.

The subject of this notice was born June 22, 1879, and died at 10 a. m., March 2, 1908. She was afflicted with that dreadful disease, consumption. She bore her afflictions with Christian fortitude, and was ready when the Master called. She called her father on the morning of her death, saying, "I wish I could drink some good water." He gave it to her and she said, "It's so good, but I am going to drink from the fountain that never runs dry." She then called her brothers and sisters to her bedside, telling them to meet her in heaven—that she was going to mama.

The deceased was the oldest daughter of E. W. Bennett. She leaves a father, two sisters and five brothers.

The funeral services were conducted by Rev. G. R. Abel, and the interment was in the family burying ground.

A Friend.

JUDAS ISCARIOT LILLARD.

The penalty which the Representative from Boyle county is now paying should be a lesson to never be forgotten by any who in the future might be tempted to betray a trust reposed in them by their fellow men. E. W. Lillard was given the high honor of representing the county of Boyle in the Legislature. He bore the Democratic banner from that grand old county. He was instructed implicitly with its care. The Democrats of that county, also assisted by Gov. Beckham and others, worked diligently for his election. He was pledged to support Gov. Beckham, the Democrat nominee, for the United States Senate. The stewardship of Boyle county was placed in his hands. And how did he guard the trust? Instead of keeping the banner high aloft and floating to the breeze as the day it was handed to him he trailed it in the slime and handed it over to the enemy. He cast the decisive vote which elected Bradley to the United States Senate. Is it any wonder then that on his return* to his native heath, where he had been honored and respected, he found himself dangling in effigy from the limbs of a tree in the court house yard, after which a mock corners inquest was held over the dummy; large banners floating across Main street with the word "Lillard and Traitors" on it and other words such as "How much did you get and etc." Spurned and despised among the people who once honored and respected him, and thus is the untimely and unhonored finish of the Traitor.—Somerset Times.

AN EDITOR GOES TO CHURCH.

A central Kansas editor says: We attended church some time ago, and listened to a very good sermon as sermons go. We enjoyed the singing, and stood up with the brethren and sisters while they sang the good old hymn, "Shall We Know Each Other There?"

While the hymn was being

sung we glanced about us and counted about a dozen members of the congregation of the church who do not speak to each other when they meet on the street, or elsewhere.

The thought occurred to us, why should they "know each other there," when they seemingly don't know each other here?

Democratic newspaper devoted to the interests

class mail matter.

WED. MARCH 18, 1908.

The sane and practicable thing for the Democratic forces of this State to do is to cease criticism and appeal to the sober sense of the people and the great issues that confront us in the welfare of party and State. Men can not be driven like cattle, and if our party is ever brought back to its old time vim and prestige, it will be through convincing proof and reason and not by denunciation. We can not hope to unite so long as we fight and denounce everyone whose views and whose actions do not measure up to our own way of thinking and doing. Our party has been divided, and honestly so. Those who in 1896 did not accept the Democratic nomination on the paramount issue of unyielding Democracy brought them back in later campaigns, should not be denounced and measured by their refusal to support their party at that time when advocating measures detrimental to the country as they honestly believed. Again, those who could not accept the leadership of Mr. Goebel through that party revolution of policy, if willing to join hands with the Democracy now, should be received in full fellowship. There are times and conditions when bolting a party is not treachery, but redounds to good. With every man it should be when his party is not measuring up to the public good and this, in the main, can only be determined by judgment of men and measures as they see and understand them, but this does not include the bolting Democrats in the Kentucky Legislature, whose plain duty was to carry out the will of their party. In this and similar instances where power is delegated bolting reaches the highest treachery and deserves the severest penalty within the limits of party organization to inflict. We have no compromise with such dishonorable action and do not believe any man prompted by good intentions has ever committed such a breach of trust. Holding the views as we do, that every man should be free and independent and act for his country's best interest; that he should be loyal to party when party is true to country; that a bolter is not always a traitor, we say to the Democratic press of the State that it is time to withhold abuse of those who have heretofore failed to measure up to our doctrinal teachings and partisan requirements. The News welcomes all who returns to aid the party in its mission for good. It is willing for Ex-Senator Lindsay to go as a delegate to nominate Mr. Bryan if Mr. Lindsay will agree to do. It appreciates

the support Mr. Watterson has agreed to give Mr. Bryan though he has fought on the opposite side in the past. The Courier-Journal's course has not measured up to our ideal a Democratic paper. Mr. Watterson has fought both State and National leaders, but now he promises his best to the man and party he could not honestly support on the issues of 1896. What more could be expected; what more could any sensible man or party demand or want? Appeal to reason, not prejudice; fight for our principles in an honest way and give every man the same latitude of action reserved for yourself; condemn the bad, approve the good, let it hurt or please, and the day is not far distant when our party will assume its old time standing and Kentucky freed from the torch and lash.

The Minstrel of the Honey Grove, Texas, Signal was in a musical mood last week, and sang as follows; "And a Kentucky legislature—a Democratic legislature at that—has elected a Republican to the United States Senate. Surely this is the limit, if there be a limit to the harrowing of Democratic feelings. Kentucky has figured much in song and story since 1793, but so far as we are concerned she can hang her harp on a chestnut tree and sell her literature to the feudists for gunwadding. Accursed be the day that old Daniel Boone began to shoot civilization into the "dark and bloody ground" with his eight foot rifle. Many names make glorious the pages of Kentucky history, but these will fade for shame, and other historians will write upon the torn pages of the golden book the pale memory of Kentucky's passing." "Wave not the proud American flag over the land immortalized in music and metre, lest the eagle thunder the awful word of damnation upon the race of degenerates—lest the stars on the blue field put out their lights for shame, and the stripes grow dim with disgust. From early childhood we have been taught to believe in the Kentucky trinity of fastest horses, fairest women and finest liquors, and until last Saturday's morn the tri-colored banner of superlatives was an article of our faith—but the triple-headed idol is shattered, and hundreds of worshippers, like Rachel refuse to be comforted. Poets of latter days have sung the praises of Kentucky's meadow grass; in sparkling rhyme they have told us that heaven's ethereal blue was pale green or dull brown in comparison with the velvety carpet of royal blue that covers the sacred soil of the grand old commonwealth. They have told us that every Kentucky mare is a thoroughbred and every gelding a hot-foot; that the Kentucky belle has the eye of a gazelle, the grace of a nymph and the form of a naiad; and that Kentucky mint-julep is a concoction that combines all the delightful flavors that touch into life the finest fancies or weave the fair est pictures upon the canvass of hope. But how have we been deceived by the cruel jesters! The far-famed Kentucky blue grass is nought but dead field

Editor of the News:

Here is one dollar for your paper, another year. I would not enjoy reading the paper on credit.

We are having fine weather. March is here with swelling buds and peeping flowers; surely spring is here, and we hope March will go out like a lamb. We sowed our peas in February in a trench six inches deep and covered the peas two inches deep with dry earth, put in the dry house last fall. We sowed tomato seeds last month, in old tin cans and boxes in rich dirt, and set them on a warm stove and in four days they were up and growing nicely. Too much cannot be said in the praise of tomatoes and we are glad to notice their increasing popularity from year to year.

ELIDA, NEW MEXICO.

Editor News:

Thinking perhaps some of the readers of your valuable paper would like to hear from New Mexico, I will pen a short letter.

Elida is a nice little city on the Santa Fe R. R., 140 miles from Amarillo, Texas, and 65 miles North of Roswell, New Mexico. Elida has six general dry goods stores, five grocery stores, three hotels and several short order houses, one cement factory, three lumber yards, one corn mill, broom factory, three barber shops all doing a good business.

Farmers are getting on a hustle this year. Quite a lot of plowing is done, and there will be a large crop of broom corn and cotton raised. We have had a car load of cotton seed shipped to Elida from Memphis, Texas.

There are a big lot of home-seekers coming now from almost every State, and deeded land is selling very well considering hard times, I think about 1000 to 3000 \$ sec. We have a nice country and nice people. Quite a lot are Kentucky folks. One Valley is name Kentucky. We have rural routes and telephone lines.

Your scrib is from an adjoining county to Adair—Cumberland. I left there four years ago last September, and hope to be able to see my old Kentucky home again some day. I would love to take a squirrel hunt once more.

Royal Peacock is a Combined Horse of Excellent Speed, both Saddle and Harness. Style cannot be surpassed. He has already proven a great sire, imparting Size, Action, and Style to his get. He was sired by Thompson Bros', noted prize winner Peacock, which has taken many premiums, both model and action winning at Nashville, Tenn., State Fair 1901 and 1902, both years, over some of the best horses in the United States and Canada; he by Edgemar, he by Sam Jones, he by Gen. George H. Thomas the great sire of trotters with four in the 230 class. Royal Peacock's first dam was Capt. Harper's blooded mare, by Young Clipper, son of Tom Hal 2d. DEMOCRATIC ISSUES.

John Sharp Williams, who is leader of the democratic minority in the House of Representative, recently took occasion to comment on President Roosevelt's last message and while he said, some of the sentiments were "feudal, sensational and dangerous to the American public" there were some that were good. In the course of his speech he served notice upon the republicans what the democrat party intended in insisting upon in the way of legislation.

Here are the points he made, and if they do not

meet the approval of every democrat then that gentleman ought to join a Joe Cannon club.

The publication of the names and postoffice of all persons contributing to campaign funds.

Five days notice to the opposite party before a writ of injunction involving property rights can be served.

The rights of any one charged with contempt of court committed outside the view of the court, to be tried before a natural judge.

The election of United States senators by the people.

The enforcement of collections under the income tax law.

Investigation of the so-called white paper trust.

Restraint of over capitalization of corporations.

A mendments of the interstate commerce act so as to further do away with destructive methods of crushing competition.

To remove duties from goods carried in American bottoms between the United States and its insular possessions.

To reconvene the joint with tariff commission for the purpose of furthering reciprocity between the United States and Canada.

To put into operation in the terms of President McKinley's proposed reciprocity bill in this country and France.

A minimum tariff schedule.

To admit coal free of duty.

To reduce to 100 per cent any duty in excess of that.

To so reduce the duties on hides as to cut by one-half the present profits on certain leather goods.

To admit free of duty the products of those American nations whose ports admit free our bread stuffs and other necessities of life; structural materials, implements, etc.

To establish the independence of the Phillipines.

To create free trade between the United States and the Phillipines.

And in conclusion, Mr. Williams "hope to God the Republicans will not be deaf to the cries of the children of the land and refuse to pass a bill which has been introduced to place antitoxin on the free list."

In regard to the financial situation, the first thing the Democrats would be to build up in the treasury, by a tax on the banks, a redemption insurance fund of about \$15,000,000 and a tax of one-eighth of one per cent, he thought, would be sufficient.

That is the Democratic platform in the house of Representatives, and it will be the platform adopted by the Democrats at Denver next June.

Rev. W. C. Christie, of the Methodist denomination, preached a very able and interesting sermon at this place Sunday night. Bro. Christie was born and reared in Adair county and has many friends and relatives who wish him much success.—Edmonton News.

Good For Everybody

Mr. Norman R. Coulter, a prominent architect, in his Delight Building, San Francisco, says: "I fully endorse all that has been said of Electric Bitters as a tonic medicine. It is good for everybody. It corrects stomach, liver and kidney disorders in a prompt and efficient manner and builds up the system. Electric Bitters is the best spring medicine ever sold over a druggist's counter; as a blood purifier it is unequalled. 50c. at T. E. Paul's drug store.

Mr. John Harvey who is located in the South, in the lumber business spent a few days of last week visiting his relatives at this place.

We take it that our people do not realize that we have a stock law in this voting precinct, from the number of horses, mules, jacks, jennets, hogs and cattle we see daily running at large bothering people as they come and go from this place. As you all know your reporter is not a lawyer nor the son of one, but we do know that our voters at our last November election did vote on this question and further more we know that a majority of the votes cast at that election was in favor of the stock law. What's the trouble? Just enforce the law is all.

James Diddle who has been in Quannah, Texas, for the past six months arrived at his home in our city a few days ago. He is looking fine and says that he likes the lone star state splendid; also informed us that all of the Kentucky people were getting along nicely that were located at that city, he also stated that Mr. Logan Hagan the expert miller that runs Diddle & Parson mill last year at this place, was engaged in business with Messrs. J. J. Hunter & son formerly of this place. Success to you Logan.

On last Sunday morning Mr. E. T. Keltner and wife, of East Fork, arrived at their son-in-laws, Mr. E. V. Thompson near this place bright and early and insisted on their daughter, Mrs. Thompson, to make a visit with them to see some of our sick

people which she consented to once, and on their return to Mr. Thompson they found the table well supplied with every thing that was good to eat. This great feast was prepared by their daughter Miss Lina, in honor of her mothers anniversary and was kept a profound secret from Mrs. Thompson. There were quite a number of their relatives and friends present and of course Mrs. Thompson received many nice presents and especially the one presented by her father and mother. The day will long be remembered by every one present and especially the good dinner prepared by the daughter for this occasion.

Messrs. Will King and John Cook, drygoods and hardware men made our town last week and had a good business with our merchants.

We wish our Fiscal court could decide the condition of the road from this place to Columbia. We need more money to be spent on our roads.

Rich Dillon and Fred Simpson, who are attending the L.W.T.S., were visiting their parents the 6th and 7th of this month.

D. T. McKinney, of Jeffersonville, Ind., who has been visiting friends and relatives near Dirigo, has returned home.

Strong Hill and C. S. Bell, of Gradyville, attended the burial of C. W. McKinney, last Tuesday.

Most of the farmers of this section are preparing for a tobacco crop in spite of the fear of the night riders.

Our merchants of this city, are doing a fine business. The drummers are making their regular trips in spite of the terrible mud.

GLENFSORK.

L. Morgan and son, Arthur, were in Taylor county on business last week.

John Burgess and wife, of Bedford, Ind., are visiting Mrs.

Burgess' mother, Mrs. Matilda Wilson.

F. J. Conover has recently purchased the Mollie O. Bardin property, and will move to his new place in a short time. We are glad that Mr. Conover will not leave the neighborhood, as he is an excellent citizen, and in his four years stay at this place, has made many friends.

J. A. Chapman, who is one of our most up-to-date farmers, has purchased a manure spreader, and will make the initial trial of this valuable farm implement in this section.

BRYAN.

Raining and muddy roads are the most you can see.

Mrs. U. H. Kilpatrick, who has been sick for some time, died Thursday morning.

Mr. Geo. Barnes and Miss Effie Miller who eloped to Tennessee a few days ago, were quietly married at Byrdtown. They seem to be as well pleased with their lot as any couple we ever saw. We'll say, "God speed their union."

Barnes & Co., having returned from the city, are receiving new goods, which is a nice clean stock.

Ab Travis, of Ill., is in our midst visiting friends and relatives.

Columbus Holt, Singer Sewing Machine representative, passed here enroute to Columbia.

Mr. Milt Blakely died a few days ago. Old age, we suppose was the cause.

MELL.

The continued wet weather, has delayed farm work considerably.

Notwithstanding the great rumor and confusion in the tobacco circles, the people of this section are preparing and aiming for a tobacco crop in 1908. As there has been no representatives of the Society of Equity visiting this part of Kentucky, to this late hour, to effect an organization, we take it that they mean for us to raise it and sell as we please.

Mr. Geo. Clark had a fine mare to fall dead while under saddle a few days ago.

The hickory mill run by J. R. Howard, of the Royal Wheel Co., will be here next week and begin business.

The road from here to Greenburg is almost impassable.

ZEPHYR, TEXAS.

Editor News:—It affords me much pleasure in contributing a few words to the News. I think it would be nice to have a short letter from some one in a distant land every week. Mr. Melvin White, what has become of him? I am sure if we had some more writers like him, it would be interesting.

What has become of Gov. Augustus E.? He said he was going to stop night riding in Kentucky and have peace and harmony.

We are having plenty rain this winter, but the weather has been mild.

The prospects for a small grain crop at present is very flattering. Wheat and Fall oats will hide a mule-eared rabbit.

Most of the farmers are done planting corn and a large portion of it is up.

The prospects for a fruit crop is very promising now.

Well, I'll ring off with best wishes for my Kentucky friends and the News. SAM L. MC.
